
Build Thriving Communities

that enable liberty and justice for *all*

as premised in America's 1776 Declaration of
Independence 248 years ago:

Our Results

We have developed, over a period of 40 years, policies and practices that accelerate the closure of inequities (***enabling Justice***) and that promote equal access to our nation's fountains of opportunity (***enabling Freedom***) even in initially unfair and unjust places—thus enabling justice and liberty for ***all*** sooner than later.

Our Outreach

We have successfully implemented policies and practices enabling Justice and Freedom in neighborhoods, districts, boroughs, cities, counties, states, and nations.

Our Reputation

We have received citations of excellence from current and former presidents, governors, legislators, mayors, councilpersons, and notable scholars and citizens.

Prior Funding

We have received an Inaugural grant of \$500,000 from the Pennsylvania Legislative Black Caucus and 20 subsequent grants from borough, city, county, state, and federal governments in addition to a wide range of local and national foundations.

***If interested in enabling Our Results on Your Home Turf,
we invite you to schedule an exploratory Zoom session by
contacting Jo Ellen Rudolph, MS, Education Coordinator at
jycr54@gmail.com***
